ID Document Authentication

ID Document Authentication
Automated ID & Travel Document Authentication

Our ID document authentication package consisting of our leading scanner hardware and well-known security software from partner companies, is the solution to verify and authenticate international travel and ID documents.

Used in numerous fields of application such as immigration or police but also securing, high risk transactions in banking, retail or gaming, access control and the travel sector. It enables non-expert staff to perform fast and efficient document checks with an immediate feedback regarding the authenticity of the ID document.

Performing a variety of forensic quality tests all security software applications recognize and authenticate ID documents such as passports, visas, drivers' licenses or alien registration cards from all over the world.

Your Advantages

• Easy authentication of ID documents

• Ensures customer identity and avoids fraud

• Ensures compliance and avoids fines

• Increased efficiency, reduced human error

• Perfect for non-expert staff

ID Document Authentication

Application

Prevent fraud, protect your property, comply with government regulations. Our ID document authentication package is based on an extensive document library providing the necessary know-how to perform not just basic verification checks, but also a variety of forensic-quality tests to give you an immediate and reliable GO/NO-GO decision on any national or international ID document. The detailed report including data from MRZ or VIZ, all image scans, and even secured information from the RFID chip (biometric ePassports) can be stored and used for future reference such as further inspection by a forensic document expert.

No matter if a national ID card, an international passport, visa or a driver´s license needs to be checked, data captured, images stored and/or a detailed report is required, our ID document authentication package, containing state-of-the-art scanners and high-class security software, is the solution of choice to be compliant with legal requirements and to take your process to a maximum security level.

Software

- Win 7, Win 8/8.1 and Win 10 (32 bit and 64 bit)
- Licensing: one license per PC workstation
- Updates: The regular updates contain document library updates to maintain the highest level of assurance and stay up to date with the ongoing changes in the wide field of ID documents

Hardware

Perfect images of the ID document are the fundamental basis for a successful and reliable ID reading process. Our full-page scanners are the ideal completion to the security software to ensure a perfect and trouble-free operation.

PENTA Scanner®   DESKO ICON Scanner®

Product	Application	Documents	Result
ID Document Authentication	• Read • Verify • Authenticate • Report • Store	• ICAO conform documents > e.g. passports, ID cards, visas • non ICAO conform documents > e.g. drivers' licenses, resident cards	ADVANCED Checks
